

# Digital and IT

## What is Virtual Reality

---

We've all heard of Virtual Reality, but what is it, how does it work, and where is it headed? In this course you'll learn what VR is and experience it first-hand using a headset and controllers. You'll explore where the technology is headed and the benefits it can bring to society.

### What are the entry requirements?

No formal requirements; students will be required to have completed the Next Steps in Computers course, or already have digital skills equivalent to those listed in that course's description.

### Need more information?

You can find out more about Northern College and the courses on offer by calling us on 01226 776000 or emailing [us\\_courses@northern.ac.uk](mailto:us_courses@northern.ac.uk)

## What can this course lead to?

---

Combined with other Northern College courses (such as Intro to Programming) this course could lead to other VR themed courses such as Creating Content for VR and Building VR Environments.

## Want to learn more?

---

You can find out more about Northern College and the courses on offer at one of our Open Events [<https://www.northern.ac.uk/open-events/>]

## Location

---

On-site
